MDL NO. 1456

CIVIL ACTION NO. 01-CV-12257-PBS

Judge Patti B. Saris

**INDIVIDUAL MEMORANDUM OF FUJISAWA HEALTHCARE, INC. AND
FUJISAWA USA, INC. IN SUPPORT OF THE MOTION TO DISMISS
THE AMENDED MASTER CONSOLIDATED CLASS ACTION COMPLAINT**

INTRODUCTION

Defendants Fujisawa Healthcare, Inc. and Fujisawa USA, Inc. (collectively referred to as “Fujisawa”) submit this brief in further support of the Motion to Dismiss the Amended Master Consolidated Class Action Complaint (“AMCC”). The AMCC fails to state a claim against Fujisawa because it does not plead the basic elements of the purported AWP fraud against Fujisawa with particularity. The most jarring example of this is Plaintiffs’ allegation that Fujisawa reported AWPs for certain drugs when, in fact, it is evident from the Red Book that Plaintiffs made up those AWPs.

ARGUMENT

The AMCC begins with broad sweeping allegations that the “Defendant Drug Manufacturers” inflated the AWPs of unspecified drugs. *See, e.g.*, AMCC at ¶ 6 (“Defendant Drug Manufacturers *often* promoted their drugs ... based on a fictitious and inflated AWP”); AMCC at ¶ 5 (“AWP is a benchmark from which *hundreds of drug prices* are derived in transactions throughout the pharmaceutical distribution chain”) (emphasis added).

“At a minimum, Rule 9(b) requires that a plaintiff set forth the ‘who, what, when, where and how’ of the alleged fraud.” *Gublo v. NovaCare, Inc.*, 62 F. Supp.2d 347, 354 (D. Mass. 1999). The Rule must be applied to claims brought under RICO and state consumer fraud statutes because they are based on averments of fraud. *See Doyle v. Hasbro, Inc.*, 103 F.3d 186 (1st Cir. 1996) (RICO); *Varney v. R.J. Reynolds Tobacco Co.*, 118 F. Supp.2d 63 (D. Mass. 2000) (consumer fraud acts). Moreover, Fujisawa is entitled to know the specific facts that constitute its purported fraud. *See Vicom, Inc. v. Harbridge Merchant Services, Inc.*, 20 F.3d 771, 778 (7th Cir. 1994) (RICO complaint dismissed where it “lumped together multiple defendants” and did not “inform each defendant of the nature of his alleged participation in the fraud.”).

Paragraphs 364 through 374 contain the only allegations of the AMCC that refer specifically to Fujisawa, and they do not satisfy the requirements of Rule 9(b) with respect to any of Fujisawa's products.¹ These paragraphs allege that Fujisawa stated fraudulent AWP for five brand name drugs (Aristocort, Aristospan, Cefizox, Cyclocort and Prograf). See ¶ 370 and Appendix A. The AMCC also purports to state AWP for eight Fujisawa multi-source generic drugs (acyclovir, dexamethasone, doxorubicin, fluorouracil, gentamicin, pentamidine, vancomycin, and vinblastin).² *Id.*

The Court unambiguously stated in its Memorandum Opinion and Order of May 13, 2003 ("May 13 Order") that the Plaintiffs must plead "the allegedly fraudulent AWP for each drug." May 13 Order at 45. With respect to the five Fujisawa brand name drugs, the AMCC manages to allege the AWP as they appear in the Red Book for the years indicated. While the AMCC conclusorily labels these AWP figures as "fraudulent," it is entirely devoid of any explanation of what constitutes the fraud. There is no allegation as to what AWP would have been acceptable (*i.e.*, non-fraudulent) to Plaintiffs. Are Plaintiffs claiming that a published AWP is fraudulent unless it exactly matched the invoice sales price? Or is it only if the AWP exceeded the actual sales price by some percentage? If so, by what percentage? Fujisawa should not have to guess at the answers to these fundamental questions. Rule 9(b) requires that plaintiffs allege *their* theory of fraud with particularity and they have failed to do so.

¹ The AMCC also makes conclusory allegations against Defendants for which *no* facts relating to Fujisawa are provided. See, e.g., "Improper Use of Free Samples," AMCC at ¶¶ 164-166. The AMCC does not allege a single fact regarding Fujisawa's use of free samples. Therefore, claims as to free samples must be dismissed as they relate to Fujisawa.

² For the reasons stated in the common brief on behalf of all the Defendants at pp. 37-40, all claims of the AMCC concerning multi-source generic drugs should be dismissed as against Fujisawa.

With respect to the AWP's of the eight multi-source drugs, the insufficiency of the AMCC is even more dramatic. For these drugs the plaintiffs have simply fabricated alleged AWP's which they say appear in the Red Book, but which in fact do not. Fujisawa AWP's for acyclovir, dexamethasone, doxorubicin, fluorouracil, gentamicin, pentamidine, vancomycin and vinblastin, which Plaintiffs allege were published in the 1999, 2000, and 2001 Red Books, do not exist. The actual pages of the Red Books showing the complete listing for each of these drugs with every available generic from every manufacturer are attached as Exhibit A to this memorandum.³ There are no entries for Fujisawa AWP's for any of these drugs. The only fraud here is the Plaintiffs' false assertion of their fabricated AWP's.

In addition to not setting forth the AWP's of the Fujisawa drugs as the Court required, the AMCC fails to allege any specific transaction in which any plaintiff paid a particular price for any Fujisawa drug. The Plaintiffs who seek damages in this case are employee health and welfare benefit plans. These are sophisticated commercial entities that pay pharmacies for the prescriptions filled for their members. AMCC at ¶¶ 6, 26-36. The AMCC generally alleges that the "Defendant Drug Manufacturers" engaged in a pattern of inflating AWP's that caused the plans "to substantially overpay" for drugs. *Id.* at ¶ 140. Where, as here, the essence of the fraud is that the plaintiff was overcharged, it is hard to imagine a more crucial fact than how much the purportedly overcharged party paid.⁴

³ The Court may consider the attached actual excerpts from the Red Book in deciding the present motion without converting it to a Rule 56 motion, insofar as Plaintiffs purport to quote from the Red Book in the AMCC. *See Watterson v. Page*, 987 F.2d 1, 3 (1st Cir. 1993) (Court will consider "documents central to the plaintiffs' claims" as well as documents "sufficiently referred to in the complaint.").

⁴ *See, e.g., Farberware, Inc. v. Groben*, 764 F. Supp. 296, 303 (S.D.N.Y. 1991) (in RICO case against former employees who received kickbacks from vendors for inflating prices to the corporation, Rule 9 required plaintiff to plead the amount of the overcharge); *Oppenheimer v. Prudential Sec. Inc.*, 94 F.3d 189 (5th Cir. 1996) (under Rule 9, plaintiff

Nowhere in the 300 pages of the AMCC does any Plaintiff allege how much it paid for any Fujisawa drug. It is not enough to say that Plaintiffs overpaid because Fujisawa inflated its AWP, and drug prices were generally based on AWP.⁵ Rule 9(b) mandates that the Plaintiffs allege specific facts to explain the “what” and “when” of the fraud. Whether and when there was, in fact, a fraudulent AWP for a specific drug that produced an improper “spread,” depends on the price paid for that drug by a particular plaintiff.⁶ These specific facts are at the heart of the alleged fraud and Fujisawa is entitled to know (at least by example, if the number of prescriptions is voluminous), what each plaintiff paid for each drug at issue. As a practical matter, the Plaintiffs cannot carry the burden, imposed by Rule 9(b), of pleading the prices they paid in real transactions for specific Fujisawa drugs because they do not even claim to have purchased most of the Fujisawa drugs identified in the AMCC.

To have standing, a plaintiff must allege a personal injury that flows from the defendant's allegedly unlawful conduct. *Allen v. Wright*, 468 U.S. 737, 751 (1984). Here, if the Plaintiffs did not actually purchase a particular drug, they could not have overpaid (or suffered any injury, for that matter) as a result of that drug's allegedly inflated AWP. It is clear from Appendix B to the AMCC that the Plaintiffs claim to have purchased only four Fujisawa drugs: Aristocort,

claiming fraud based on hidden sales charges by broker must plead the actual amount of the alleged overcharge).

⁵ This is in stark contrast to the Original Consolidated Complaint in this case, where the claims against Fujisawa were limited to those of Medicare beneficiaries who paid the deductible for drugs reimbursed by Medicare Part B. When *Medicare* reimburses a provider for a drug covered under Part B, the price paid for the drug is easily calculated from the AWP and the Medicare statute: 80% of 95% of the AWP, and the “co-pay” for the user of the drug (paid either personally or by their insurance plan) is 20% of 95% of the AWP. AMCC at ¶¶ 147, 152 (citing 42 C.F.R. § 405.517).

⁶ The only specific allegations of the AMCC to the effect that Fujisawa inflated an AWP to increase the spread are the quotations from an internal 1995 sales report concerning vancomycin. AMCC at ¶ 68. However, Plaintiffs do not allege that any one of them ever purchased vancomycin.

Cyclocort, Prograf and gentimicin. Thus, the Plaintiffs fail to meet their burden of pleading facts to support standing as to any other Fujisawa products, including, without limitation, Aristospan, Cefizox, acyclovir, dexamethasone, doxorubicin, fluorouracil, pentamidine, vancomycin and vinblastin. *See In re Paracelsus Corp.*, 6 F. Supp.2d 626, 631 (S.D. Tex. 1998) (dismissing class action securities claims where plaintiffs did not allege they had purchased the securities which were the subject of the case, even though nominal class allegedly had); *Thompson v. Board of Education of the Romeo Community Schools*, 709 F.2d 1200, 1205 (6th Cir. 1983) (dismissing class action claims for discrimination where plaintiffs had never been employed by defendants, even though nominal class members had).

Thus, in addition to the fatal failure of the AMCC to plead fraud with specificity as to *all* of Fujisawa drugs identified in the AMCC, the claims against Fujisawa relating to drugs other than Aristocort, Cyclocort, Prograf and gentamicin must be dismissed on the grounds that the Plaintiffs have suffered no injury and therefore lack standing.

CONCLUSION

The AMCC utterly fails to state any claim for fraud against Fujisawa. While Plaintiffs complain that Fujisawa's AWP's were inflated, after 2 years and multiple attempts, they cannot articulate what the AWP's should have been nor how much they actually paid for Fujisawa's drugs. And where they do allege specific facts -- AWP's purportedly set by Fujisawa -- it turns out that the Plaintiffs have made them up out of whole cloth. Consequently, the AMCC should be dismissed with prejudice in its entirety as against Fujisawa.
